

EXHIBIT A

**IN THE UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF TEXAS**

CATHX RESEARCH LTD.,

Plaintiff,

v.

**2G ROBOTICS INC. A/K/A VOYIS
IMAGING, INC.,**

Defendant.

Civil Action No: 5:21-cv-00077-RWS

ELECTION OF ASSERTED CLAIMS

Pursuant to the General Order Adopting Model Order Focusing Patent Claims and Prior Art to Reduce Costs (General Order No. 13-20), formally entered by the Court on January 24, 2023 (Dkt. No. 134), Plaintiff makes its revised election of asserted claims. The Court is currently considering a dispute among the parties as to the construction of the phrase “the camera and light sources are synchronized” in U.S. Patent No. 10,116,842 (*see* Dkt. No. 105). The outcome of said motion will affect Cathx’s “final” claim elections. Accordingly, Cathx submits the following election and reserves the right to modify it (and will modify it) based on the Court’s resolution of the referenced motion at the appropriate time. Cathx further expressly reserves the right to withdraw this election, and make a new election, should the Court issue another order amending the Docket Control Order and setting a later date for Cathx to make its election of asserted claims. Pursuant to and subject to the foregoing, Cathx makes the following claim elections at this time:

Cathx elects Claims 1, 3, 12-13, and 15 of U.S. Patent No. 10,116,842.

Cathx elects Claims 1, 4, 12, 13, and 15 of U.S. Patent No. 10,116,841.

Dated: January 24, 2023

Respectfully submitted,

/s/ Edward L. Bishop
